

A close-up, low-angle shot of a mechanic working on a car engine. The mechanic is looking upwards, focused on his task. A bright, adjustable Philips LED work lamp is positioned to illuminate the engine compartment. The lamp's beam is directed at the engine, highlighting the intricate components. The background is dark, emphasizing the light from the lamp. The overall scene conveys a sense of precision and professional craftsmanship.

PHILIPS

Professional
workshop lamps

Defeat
darkness

A close-up photograph of a mechanic's arm and shoulder, wearing a blue t-shirt and a blue safety harness. The mechanic is leaning over, working on the engine of a vehicle. The background shows a workshop environment with overhead fluorescent lights. The text 'Defeat darkness' is overlaid on the image in white, with 'darkness' in a larger, bold font.

Defeat **darkness**

When you're repairing or maintaining vehicles, there's no room for errors. Our professional workshop lamps feature powerful LEDs for intense white light and a wide beam to illuminate every detail with pinpoint precision. Designed to optimise clarity and vision, the natural white light improves visual comfort for fatigue-free working. So even when you're working on the toughest problems, or in the tightest spaces, you can be sure you have the right tools for the job.

Powerful LED light for
**comfortable, safe
working**

High power LEDs for maximum light performance

Our lamps feature powerful, high-quality LEDs for a bright, intense light with maximum performance that optimises clarity and vision.

Highest light output with white LED light

The white LED light has a high lumen output to guarantee you have more visible light.

Wide beam angle with even light distribution

The wide beam of bright light is distributed evenly over the illuminated area, giving you the optimum overview and lighting every detail with pinpoint precision.

Natural white light (6000 K) for visual comfort

Our white LEDs have a colour temperature of 6000 K. They produce a natural white light that's easy on the eye, improving visual comfort and reducing eye strain for fatigue-free working.

Extremely durable
with extra resistant housings

Extra robust with water, dirt and dust protection

In extreme environments you need tools that are up to the job. Our lamps are water, dirt and dust protected to IP54, IP65 and IP66 standards, so they shrug off whatever life throws at them.

Durable housings that are impact and shock resistant

Designed for durability, they feature impact- and shock-resistant housings that pass the IK07 and IK09 drop tests with flying colours.

Highly resistant to grease and workshop solvents

They're also highly resistant to the grease, chemicals and solvents that are commonly used in workshops, so you can place them anywhere, worry free.

Hands-free working

Work better with hands-free lighting

Hands-free lighting means you can work better too. Our lamps come with clever hooks, clips, detachable cables and magnets, so you can use two hands when you working and improve your performance.

Shadow-free beams for optimal visibility

Wide and focused beams optimise visibility and eliminate shadows, so our lamps are comfortable and easy on the eye.

The right lamp for the job

A versatile range that covers every garage need

The range of LED lamps provides the best light for every workshop task, from brief inspections to maintenance and repair work. From professional workshop LED penlights and inspection lamps to rechargeable work lamps and multi-directional lighting systems, we have the right lamp for the job.

Long-lasting battery life from 5 to 11 hours

The batteries in all our lamps are designed to last from 5 to 11 hours. So you can work a full day without interruption and recharge them overnight, ready to start work again the next day.

Headlamp

Philips high-power LED headlamp is a perfect tool for hands-free repairs. With 90° orientable head you can easily direct your light. Eco & Boost light modes and wide beam provide you with superior illumination of the work space.

HDL10

Professional LED headlamp

LPL29B1

Dual light mode

- 100 lm Boost LED light for high-precision tasks
- 50 lm Eco LED light for a quick inspection

Wide beam angle

- 50° beam angle
- Long-lasting LED

Quality finishing

- 90° pivoting lamp head
- Adjustable headband
- Water resistant
- Powered with 3 x AAA Philips batteries

Penlight Professional

The portable inspection tool
LPL19B1

Very intense white light for optimal vision

- High quality LEDs with 130 lm light output
- Natural white light of 6000 K

Access very narrow cavities

- LED pointer on top: 20 lm
- Small and compact

Up to every inspection job

- Water and dust-proof: IP54
- Shock-resistant housing
- 11-hour battery autonomy

Penlight Premium

High-power LUXEON® Rebel LED lamp in a compact format

LPL28RECHX1

Comfortable light for fatigue-free work

- High-power LUXEON® LEDs with 145 lm light output
- Natural white light of 6000 K
- Homogeneous, wide beam

See what remains hidden to others

- Strong LED pointer of 120 lm
- Robust, comfortable and hands-free

Rotatable clip holder with integrated magnet

- Robust aluminium housing with soft grip

Fast charging and consistent light output

- Latest battery technology delivers a great battery life
- Up to 6-hour battery autonomy

RCH5

Ultra-slim
and versatile design

LPL32X1

Superior bright light

- Boost/Eco light modes: 110lm/55lm
- 3x SMD LED
- Wide beam angle - 120°

Versatile design

- 180° tilting lamp head
- 360° rotating hook
- Strong magnet & handy belt-clip

Reliable battery

- Up to 5 hours of autonomy during the day
- Full recharge in only 2,5 hours

RCH10

Cordless professional
lighting tool

LPL20X1

Superior bright light

- White LED light - 150lm
- Wide beam angle: up to 120°

Robust and resistant

- Robust protective housing: IP54 and IK07

Hands-free lighting

- Cordless, with rotating hook
- Easy-opening cap with strong magnet

RCH21

Rechargeable lamp with docking

LPL33X1

240/120
Lumen

High power white LED light

- Defeat darkness with soft natural light
- High power LED light: 240 lm Boost & 120 lm Eco
- Wide beam angle: 90°

High resistance

- Strong impact resistance - IK07
- Water, dust & solvents protected - IP54

Ultra-durable battery

- 5x longer lifetime with new battery
- Long autonomy – 6 hours
- Super-fast recharge – 1.5 hours

Handy and versatile

- 90° flexible light module
- Hands-free: 360° retractable hook & strong magnet
- Find-Me red light when in stand-by mode

RCH31UV

UV Light Leak Detector

LPL34UVX1

High power white LED light

- High-power LED light: 350 lm Boost & 150 lm Eco
- Wide beam angle: 90°
- UV light leak detector

High resistance

- Strong impact resistance - IK07
- Water, dust & solvents protected - IP54
- Ultra-durable battery
- 5x longer lifetime with new battery
- Long autonomy – 8 hours
- Super-fast recharge – 2.5 hours

Handy and versatile

- 90° flexible light module
- Hands-free: 360° retractable hook & strong magnet
- Find-Me red light when in stand-by mode

3-Pack Multi-Directional Lighting System

MDLS

All-in-One lighting system
for professionals

LPL263MODX1

750/360
Lumen

Four tools in one

- Use as light-box, torch, spotlight and light bar

Designed for professional lengthy repair jobs

- High-power LUXEON T LEDs for long-lasting comfortable light output
- Natural white light of 6000 K
- Two light modes: 750 and 360 lm
- Rotatable heads and adjustable lenses

Robust tools

- Robust protective housing: IP54 and IK07
- Robust toolbox for storing and recharging
- the modules

CBL10

Professional lighting tool

LPL35X1

High power white LED light

- High power LED light: 330 lumens
- Wide beam angle: 120°

High resistance

- Resistant to chemical & workshop solvents
- Strong impact resistance -IK07
- Water & dust protected -IP54

Compact & hands-free lighting

- 5m cable and 360° retractable hook

CBL30

Professional lighting tool
with focus light

LPL14X1

Best-in-class light output

- 12 high-power LEDs with 330 lm light output under a wide angle of 100°
- Strong LED pointer of 90 lm
- 6500 K colour temperature

Robust and ultra-resistant

- Robust protective housing: IP54 and IK07
- Operates from -10°C up to 40°C

Ultra-slim and easy to use

- Ultra-slim design means it can reach into even the narrowest of spaces
- Versatile 360° magnetic hook to clip onto all surfaces
- Soft ergonomic grip

CBL40

Professional multi-usage lamp

LPL22X1

Dual corded and cordless usage

- 6-metre cable
- Up to 2 hours of cordless usage

More light output

- High-power LED
- 100° beam angle

More eye comfort

- White LED light
- 6500 K

Powerful LED focus light

- With high-power LED

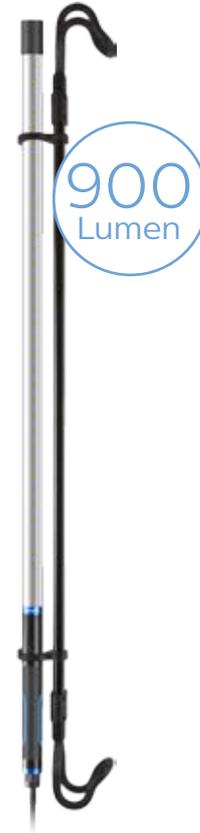

Hands-free lighting

- 360° clipping hook with magnet

CBL50

Professional bonnet lamp

LPL24X1

More light output

- High-power LED
- 100° beam angle

More eye comfort

- White LED light
- 6500 K

High resistance

- Robust aluminium housing
- Water and dust-proof

Hands-free lighting

- Adjustable telescopic mounting

IP Ingress Protection

Degree of protection provided against the intrusion of solid objects, dust, accidental contact and water in electrical equipment.

1st digit: solid particle protection

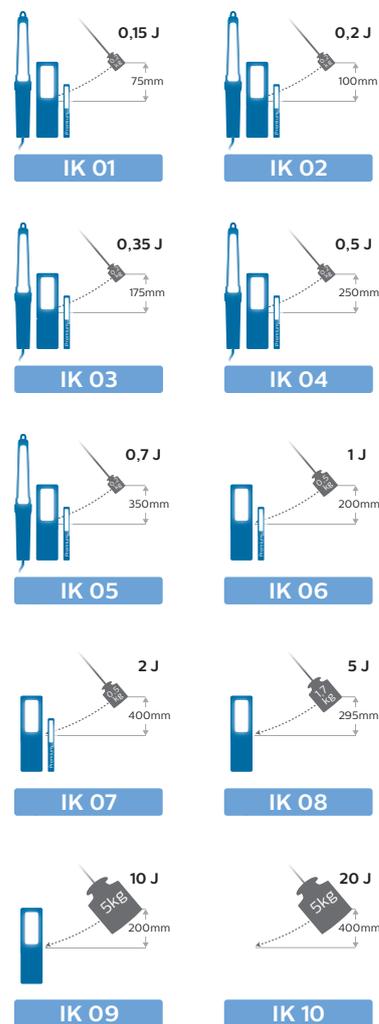

2nd digit: liquid ingress protection

IK Impact Resistance

Degree of protection provided by enclosures for electrical equipment against external mechanical impacts.
