Highlights

Wide beam angle

The wide beam angle of 70° will enable you to focus on specifics part and to deliver the right amount of light you need.

High-power LUXEON® LED light

The high power white LUXEON® LED's provide 120 lumens of light output to ensure that you are not left in the dark when trying to spot even the smallest details.

Resistant to chemicals

As well as resisting knocks, the inspection lamp cases are resistant to water, chemicals and workshop solvents.

Strong impact resistance -IK09

The robust case is designed for a very tough working environment and conforms to IK09.

Water & dust protected -IP66

The LED inspection lamp is water resistant, and conforms to IP66.

Easily spot leaks

Not only does this LED inspection lamp have a very strong main beam, it is also equipped with an UV-A leak detector. This will help you to easily spot leaks in air conditioning systems without any additional tools required. Simply add leak detection fluid to the A/C system and any leak will show up.

Defeat darkness

Philips professional workshop lamps feature powerful LEDs for an intense white light and a bright wide beam to defeat darkness. Designed to optimize clarity and vision, the 6000 K white light also improves visual comfort for fatigue-free working.
